BOLERO
MaXX
PIK-UP

One Commercial Family. Two Operating Roles.

The Bolero MaXX range is built around one commercial truth: every trip should work harder for the business. Choose the payload that matches the job, the route and the earning opportunity.

City

MaXX City

1.3T | 1.5T Payload

Built for efficient intra-city and peri-urban operation, where compact dimensions, controlled running costs, payload flexibility and driver support matter every working day.

Heavy Duty

MaXX HD

1.7T Payload

Built for operators with heavier loads, longer routes and tougher daily working conditions. The HD step-up gives businesses more load confidence when the job demands more.

Maxx City. Maxx Efficiency.

City Pik Up 1.3T

Introducing the compact Bolero MaXX City Pik Up 1.3T.

The 1.3T is the agile entry point into the Bolero MaXX range - built for businesses that need a practical payload, easier city operation and lower running costs. It is made for the everyday rhythm of stop-start work: narrow streets, busy depots, tight yards, frequent loading, repeated delivery runs and long days where every litre matters.

With a 1 300kg payload, 2.5 diesel engine, 52kW power and 200Nm torque, the 1.3T gives owner-drivers and small fleets the working ability they need without over-specifying the job. Its 4 800mm overall length, 3 150mm wheelbase and power steering help support confident maneuverability in urban and semi-urban environments.

The 5.92 L/100km fuel consumption figure helps make the 1.3T a smart business choice for operators who run multiple trips per day. Combined with a 45L fuel tank, durable R15 LT tyres, 185mm ground clearance and a practical 2500 x 1700 x 398mm cargo box, it is designed to keep costs controlled and work moving.

Maxx City

Compact dimensions and power steering help the 1.3T work confidently in narrow streets, delivery bays, loading zones and tight business environments.

Maxx Efficiency

Fuel consumption of 5.92* L/100km supports lower operating costs across repeated daily trips.

Maxx Practicality

A 1 300kg payload and 2500 x 1700 x 398mm cargo box give small businesses usable space for stock, parcels, tools and equipment.

Maxx Value

The 1.3T gives businesses a practical payload-for-money solution with essential work-focused features.

**Combined Fuel Consumption*

Maxx City. Maxx Comfort.

City Pik Up 1.5T

Introducing the Bolero MaXX City Pik Up 1.5T.

The 1.5T is the core Bolero MaXX City workhorse - built for businesses that need more carrying confidence, stronger cabin comfort and added safety support for everyday work. It gives SMEs, trades and owner-managed fleets a practical balance of payload, usability and driver-focused features.

The 1.5T also strengthens the ownership experience inside the cabin. Air conditioner, heater and demister support comfort in South African working conditions, while the driver seat with recliner, slider and height adjustment helps reduce fatigue across longer days. Fabric stain-resistant seats, power steering, 12V socket, lockable glovebox and 2L bottle holder make the cabin feel more like a mobile workplace.

Safety and control are also key to the 1.5T offer. Turn safe headlamps, ABS, rear parking sensors and front disc/rear drum brakes support driver confidence in depots, yards, traffic and delivery environments.

Maxx Comfort

Air conditioner, heater and demister help keep the cabin usable through heat, rain, misted windows and long working days.

Maxx Safety

ABS, rear parking sensors and front disc/rear drum brakes support safer operation in busy yards, depots, traffic and delivery environments.

Maxx Control

Power steering and an adjustable driver seat help support confidence and comfort over repeated stop-start routes.

Maxx Practicality

The 1500kg payload and longer 2640mm cargo box give businesses more carrying confidence for heavier daily loads.

Maxx Workplace

Fabric stain-resistant seats, 12V socket, lockable glovebox and 2L bottle holder support the driver during a full day on the road.

Maxx Load. Maxx Capability.

Heavy Duty 1.7T HD

The all-new Bolero Maxx Pik-Up HD is built to take on tougher transport demands across the country. Equipped with Maxx Cooling AC, it gives drivers the comfort they need while the vehicle gets on with the work.

With its 1 700 kg payload capacity and a 3050 mm x 1800 mm x 650 mm cargo box, the HD range gives businesses the load space and carrying confidence needed for heavier daily jobs.

At the heart of the Bolero Maxx Pik-Up HD is a 2.5 diesel engine delivering 59.7kw of power and 220 Nm of torque, giving it the strength to handle demanding loads, hilly routes and challenging working conditions.

A 60L fuel tank supports longer working routes and fewer interruptions, while 210 mm ground clearance helps the Bolero Maxx HD stay confident over rough roads, uneven sites and tougher terrain. Designed for productivity, comfort and capability, it helps every trip work harder for your business.

Maxx Loading

Carrying heavy loads becomes easier with the Bolero Maxx Pik-Up HD. With a 1 700 kg payload and a 3050 mm(L) x 1800 mm(W) x 650 mm(H) cargo box, it gives operators the space, depth and confidence to move more in every working day.

Maxx Performance

The 2.5 diesel engine produces 59.7 kW and 220 Nm of torque, giving the HD range the pulling strength and working confidence needed for heavier loads, inclines and demanding routes.

Maxx Terrain Capability

With 210 mm ground clearance, durable 7R15 LT tyres, a strong chassis and leaf-spring suspension, the Bolero Maxx Pik-Up HD is built to keep working when roads, sites and routes become tougher.

COMFORT. CONTROL. CONFIDENCE.

Maxx Comfort

2+1 seater cabin, power steering, 12V socket and driver-seat adjustment support long working days and repeated stop-start use.

Maxx Safety

Rear parking sensors, front disc/rear drum brakes and ABS supports confidence in tight yards, depots and delivery environments.

Maxx Practicality

Vehicle foot step, lockable glovebox and 2L bottle holder add everyday usability where the vehicle doubles as a mobile workplace.

Maxx Ownership

Service: 20 000km

Warranty: 4yr/120 000km

BUILT LIKE A TOOL. DESIGNED LIKE A WORKPLACE.
